Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 2 drawn to a viewfinder with light emitted device, classified in class 348.
 - II. Claim 8 drawn to a display panel, classified in class 345.
 - III. Claim 10, drawn to projection display apparatus, classified in class 349.
 - IV. Claim 11, drawn to an illuminating apparatus, classified in class 359.
2. Inventions I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the viewfinder with a LED for emitting a light is distinct with a display panel with a reflecting film and an insulating film or a projection display apparatus with a rotary filter or an illuminating apparatus with light emitting device and a concave mirror.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, Group III or Group IV, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 2674

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A telephone call was made to Mr. Allan Ratner on 2/10/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
